"Let's Get Back Down To Earth"

Visit "[Let's Get Back Down To Earth](#)" on MotoLyrics.com

Well this ol' world is a gettin' worse and worse every
day
People livin' up above their heads and makin' bills that
they can't pay
Their jealous of their neighbors and it's been like that
since birth
So come on down and get your feet on the ground let's
get back down to earth
Let's get back down to earth and live with the common
people
Then we won't be so meserable when we get old and
feeble
Now let's be honest with ourselves we all know what
we're worth
So come on down and get your feet on the ground let's
get back down to earth
[steel]
When we all come to this ol' world we didn't bring a
thing
And when we leave this ol' world we're gonna take the
same
Now you know better than I am when the man says dirt
to dirt
So come on down and get your feet on the ground let's
get back down to earth
Let's get back down to earth...
Yeah neighbor
Come on down and get your feet on the ground let's
get back down to earth
