I can't begin to count the many times I've tried
To tell my heart there's no more loving you
But still it reaches out to find old memories forgetting
you is something I can't do
Cause love is where the heart is and my heart still to
you gives
Every trace of love it ever knew
Yes love is where the heart is and though I've tried the
hardest
I can't keep my heart from wanting you
[guitar]
The day you left was sad but I said I won't feel bad I'll
go away and forget you soon
But leaving just can't help cause I can't leave myself
The hurt's too deep and time won't heal the wound
Cause love is where...
No I can't keep my heart from wanting you
