

## Warlord

### "The Spark"

Visit "[The Spark](#)" on MotoLyrics.com

I feel the pressure building up  
I've been waiting for the sign  
Will it come?  
Will it be something divine?  
Another day has just begun  
Still my mind's empty nothing's done  
Should I run away from the city?  
Or go to the bar and have some fun

Once again I need to find the spark  
I will search all night long  
Even though I need to wonder in the dark  
I know I have to finish this song

The day is over the paper's empty  
I have to ask advice from Mr. Beer  
He shows me some of his visions  
And suddenly everything is so clear

Once again I need to find the spark  
I will search all night long  
Even though I need to wonder in the dark  
I know I have to finish this song

Once again I need to find the spark  
I will search all night long  
Even though I need to wonder in the dark  
I know I have to finish this song  
[Repeat]
