You never even gave me any warning just came right  
up to me and said goodbye  
Oh what a thought to know that I'm losing you this must  
be the way it feels to die  
I know my heart stopped beating when you told me  
Couldn't even catch my breath to say goodbye  
There can't be anything in life that hurts this way this  
must be the way it feels to die  
[ steel ]  
You tore my dreams in tiny little pieces destroyed them  
in a twinkling of an eye  
This pain I feel just can't be part of living this must be  
the way it feels to die  
I know my heart stopped beating...
