

Warlord

"When We're Alone At Night"

Visit "[When We're Alone At Night](#)" on MotoLyrics.com

It's worth workin' all day just to hold you my way when
we're alone at night
When we're alone at night I'm so close to heaven
When the world's locked up outside I know life's worth
livin'
The troubles around me are all out of sight
My worries are gone I'm where I belong when we're
alone at night
I can't count the hours your love's pulled me through
The times I've leaned on just my thoughts of you
And live for the moments I'm holding you tight
It's worth workin' all day just to hold you my way when
we're alone at night

When we're alone at night my heart rings with laughter
Your love has a way to make it beat faster
When your arms surround me my world seems so right
My worries are gone I'm where I belong when we're
alone at night
I can't count the hours...
