Who's gonna dry your big blue eyes day after day  
Who's gonna jump when you say frog  
Who's gonna bow and stray  
After I've gone away

[ drums ]

Who's gonna kiss ya and who's gonna miss ya  
Who's gonna hold to your hand  
Who's gonna chop your kindle and wood  
After I've made new plans

Hey who's gonna be your man

Who's gonna bring you your breakfast in bed  
Who's gonna whisper goodnight  
Who's gonna keep you warm as toast  
On those cold winter nights

And who's gonna be your puppy dog  
When I'm a thing of the past  
Hey who's gonna mow your grass

[ drums - guitar ]

Who's gonna bring you your breakfast in bed  
Who's gonna whisper goodnight  
Who's gonna keep you warm as toast  
On those cold winter nights

And who's gonna be your puppy dog  
When I'm a thing of the past  
Hey who's gonna mow your grass
