It ain't broken 'till you scream and scold and chide it
The knife ain't stabbin' 'till you feel your hand around it
Blood and spurn
Take your turn
Buck up, don't you cry
Don't cry
Steely white
A seething sight
Make her broken white

Let's call it a war
It don't hurt no more
I fall up from the floor
Your holy ghost is a holy whore
Let's call it a war
I don't scare no more
I fall up from the floor
Your holy ghost is a holy whore

Psycho dancin' want it right in your face, you got it
Spike up your boots, it's time to fight your
Way on out, you got it
Bitch, you'll learn
Your pain is earned
Suck it up, do your time
No time
A feely fright
It just ain't right
Call her broken white

Let's call it a war
It don't hurt no more
I fall up from the floor
Your holy ghost is a holy whore
Let's call it a war
I don't scare no more
I fall up from the floor
Your holy ghost is a holy whore
