Strophe:

Feeling it's coming, something 's in the air tonight.  
Looking started sparkling in the dancefull light.  
Ready for the weekend to begin.  
Suddenly I see you walking here.  
Next thing I can feel your fingers on my skin.

My oh my ... When you touch me you got me high so high.  
With my head in the clouds again and I can fly on the wings that you gave me. I just wanna shout but I can't make a sound.

Chorus:

You make me speechless. You take my breath away.  
You leave me speechless. Can't find a word to say.  
Word to say.  
You make me speechless. You take my breath away.  
You leave me speechless. Can't find a word to say.  
Word to say.

Strophe:

Still my hunger, boy it's growing stronger now.  
Work me longer, I don't need to show you how.  
Everytime you look into my eyes, like the little things of paradise.  
In your arms you really got me mesmerized.

My oh my ... When you touch me you got me high so high.  
With my head in the clouds again and I can fly on the wings that you gave me. I just wanna shout but I can't make a sound.

Chorus:

You make me speechless. You make me speechless.  
you make me speechless. You take my breath away.  
You leave me speechless. Can't find a word to say, a word to say.
