(Mother Superior cover)

I'm sick and tired of all the things that you do  
How'd I get stuck here with somebody like you  
It won't quit  
Same old shit  
Let me tell you really getting bored with it

Lines on your face  
Staring back at you in the mirror  
I'm making a mistake  
Situation's getting clearer  
Fooled by a whore like you

I'm sick and tired of your carousel  
You're so impatient 'cuz you know me too well  
I call your bluff  
Enough's enough  
Let me tell you really getting sick of this stuff

Lines for your nose looking back at you in the mirror  
Investigation shows  
Situation's getting clearer  
Fooled by a whore like you

I'm sick and tired of being your marionette  
Don't walk away 'cuz I ain't through with you yet  
It don't quit  
Same old shit  
Let me tell you really getting bored with it

Lines on your face staring back at you in the mirror  
I realize, I'm making a mistake  
Situation's getting clearer  
Fooled by a whore like you
