imprisoned from the truth  
not a single clue  
covered up with lies  
tainted all our lives

look no further  
just look inside yourself  
it's eating you alive  
don't let it take over you

seek, strike  
don't you know the enemy?  
ready set, aim  
take'em out with all your might  
gather all arms  
I'm one of you, you're one of me  
don't you realize  
it's time to stand, it's time to fight

friend or foe  
who will you stand for?  
face your fears  
it's not what it all appears

look no further  
the demons are inside you  
it's eating you alive  
don't let it take over you

seek, strike  
don't you know the enemy?  
ready set, aim  
take'em out with all your might  
gather all arms  
I'm one of you, you're one of me  
don't you realize  
it's time to stand, it's time to fight
