You Don't Stand A Chance
Performed by Amanda

Compared to a day with sunshine
Compared to the favorite song of mine
When I'm hangin' with my girls in the summer time
Would I choose you or the friends of mine

I had seen you looking at me
On the way to school
I watched you too
You were looking kind of cute
With your Baggies and your eyes
I just couldn't help myself
I walked up to you
You said, "Hey girl, what's up?"

We went dating
You took me to the movies
And you held my hand
On our way home
You gave me a kiss and a beeper
Then you smiled
You said now I can be sure
That I'll reach my girl
Cause you rock my world

Don't get me wrong we have a good thing
Its not like I'm not thinking of you
But you're not my everything

Compared to a day with sunshine
You don't stand a chance
Compared to the favorite song of mine
You don't stand a chance
When I'm hangin' with my girls in the summer time
You don't stand a chance
Would I choose you or the friends of mine
You don't stand a chance

Your friend told me

That I'm the only thing
You're thinkin' of
He said you've been
Goin' on about
How we're so deep in love
And how I sit around
Just waiting for you to call
Boy, you're off the wall

Don't get me wrong our thing is good fun
But its not like I'm at home
Everyday just waiting by the phone

Compared to a day with sunshine
You don't stand a chance
Compared to the favorite song of mine
You don't stand a chance
When I'm hangin' with my girls in the summer time
You don't stand a chance
Would I choose you or the friends of mine
You don't stand a chance

Don't get me wrong we have a good thing
Its not like I'm not thinkin' of you
But you're not my everything

Compared to a day with sunshine
You don't stand a chance
Compared to the favorite song of mine
You don't stand a chance
When I'm hangin' with my girls in the summer time
You don't stand a chance
Would I choose you or the friends of mine
You don't stand a chance

Oh
You don't stand a chance
Oh
You don't stand a chance
Oh
You don't stand a chance
Oh
You don't stand a chance
