Well when I die, pacify, crucify me,  
I rock the double cross,  
ones for the soul and one for the body  
if I'm built in God's eyes, I wanna see God cry  
real tears from a burnt out life for 10 years  
I swear I got the devil in me with no fear  
if I hear I can't see, if I see I can't hear,  
it's an eerie little thing between deafness and  
blindness  
weakness and kindness rejects and promise  
my mind when I'm hollering dear Lord take me  
cause I ain't really happy here can you blame me  
this game done changed me made me an animal  
I can't even laugh no more my kids smile for me now  
I'm the first and only my mammas only child  
Lord save me before I go crazy  
cause if you live through the strain just to die from the  
pain  
tell me would you believe that you can breathe again  
If God was one of us  
would he sin and love to lie  
I wanna

know if God was one of us

would he frak and live his life

I wanna know

if God was on of us

would he use his name in vein

I need to know

if God was one of us

would he believe that could breathe again

Now lets look at things through a right hand

what if you was that man would you run with him gun  
with him

would you undertsand the hustle and the strugglin

live amoungst dope heads raising your kids and  
running from the feds

we bound to bump heads

cause you living my life

all righteous and you said living righteous was right

but there's two sides of life

one dark one light if lighten up forever you could dim  
to the night

grab them guns over there and bring them on over  
here

cause my God's bigger than your god down here

now we ride jets leir baby, bubble in Belaire

cause Rule and the Lord got it going on

been known to do bad shit I'm so heavenly but so  
devilish

shit if you live through the strain just to die from the

pain

tell me would you believe that you can breathe again

If God was one of us

would he sin and love to lie

I wanna

know if God was one of us

would he frak and live his life

I wanna know

if God was on of us

would he use his name in vein

I need to know

if God was one of us

would he believe that could breathe again

Now trade places Rule be spirit God be flesh

and lets see just how weak the flesh gets

now you call on me every night bended knee

until you start to realize I ain't answering

now you hang up the phone Lord

pick up the chrome Lord

can I blame you Lord needing to feed what's yours

got a wife that you love but you still lust whores

and I'm supposed to judge you on earth where its  
earthly

you might as well aim at the sky, slug me

cause I ain't being a fair god, when life is so hard

I know every crime committed every little mistake

and still got love for you fair is fair

as long as you repent you'll be good up here

cause if you live through the strain just to die from the  
pain

tell me would you believe that you could breathe again

If God was one of us

would he sin and love to lie

I wanna

know if God was one of us

would he frak and live his life

I wanna know

if God was on of us

would he use his name in vein

I need to know

if God was one of us

would he believe that could breathe again

If God was one of us

would he sin and love to lie

I wanna

know if God was one of us

would he frak and live his life

I wanna know

if God was on of us

would he use his name in vein

I need to know

if God was one of us

would he believe that could breathe again
