Couplet 1

So many times I let you down
I left your heart on broken ground
But you would never close the door on me
And even do I've made mistakes
You let me in and kept the faith
You always seen the girl that I could be
What did I do to win your hearts devotion
You could have turned and walked away

Refrein

You must really love me baby
The way you stand by me when I'm not strong
You must really love me trust me
To leave your pain behind and try to get my heart a
home
You must really love me

Couplet 2

You never ask for gratitude
For all the times you pull me thru
And love me when I couldn't love myself
Cause it's hard for me to open up
I never learned to show my love
But maybe I can do it with your help
What did I do to win your hearts devotion
Why can I say what I've should say

Refrein

You must really love me baby
The way you stand by me when I'm not strong
You must really love me trust me
To leave the pain behind and try to get my heart a
home

Bridge

I wouldn't blame you
If you throw up your hands
And said this isn't worth it
And never took the change
There must have been a reason

That you put it on the line
Then I think about the danger
The words just being kind

Herhaal refrein (x2)

You must really love me trust me
To leave your pain behind and try to get my heart
You must really love me
