Yes I left you for the bright lights of the town searching  
for a magic world of joy  
But when a million city lights go down they're shining  
down on a blue Kentucky boy  
Oh how I'm missing you and long to kiss you  
To hold you now would bring me so much joy  
I miss the fields of blue grass web with you  
And the one who's blue for this blue Kentucky boy  
[ ac.guitar ]  
I'll soon be on my way back home to you for here my  
heart is like a broken toy  
I know the moon will shine the whole night through  
To light the way for your blue Kentucky boy  
Oh how I'm missing you...
