There's a jukebox in my ear playing so loud I can hardly  
hear  
And it's a telling a story bout a girl like you  
Each selection that I make tells me how my heart will  
break  
For falling in love with a girl like you  
Well it's just an old machine without a heart and oh so  
mean  
Says I probably spend my whole life feeling blue  
So I'll just put in one more dime and play the same  
song one more time  
Cause I want to hear bout a girl like you  
[ steel ]  
Well it's just an old machine without a heart and oh so  
mean  
Says I probably spend my whole life feeling blue  
I GUESS THAT I SHOULD GO ON HOME BUT I CAN'T  
STAND TO BE ALONE  
AND I WANT TO HEAR ABOUT a girl like you
