The game is older than time breaking hearts the way  
you broke mine  
Every rule was made to bring pain hurt is the name of  
the game  
You made rules I paid for every play falling for your lies  
in every way  
So much in love I couldn't see the change now hurt is  
the name of the game  
To cheat and pretend that's your speciality  
Doing anything you can to make a fool of me  
Since loving you I'll never be the same and now hurt is  
the name of the game  
Since loving you I'll never be the same now hurt is the  
name of the game
