I just don't understand the way you're thinking

The things you say to me are so unkind

Why do you live in fear of your heart breaking

When hurtin' you a million thoughts from my mind

Don't judge my love by ones you'd known before me

Please darling leave their memories behind

Just give my love a chance to show what it can be

Why hurtin' you a million thoughts from ym mind

[ steel ]

Don't judge my luck...

Yes hurtin' you a million thoughts from ym mind
