Visit "[Wedding Rings](#)" on MotoLyrics.com

Wedding rings on your finger should be a string tied in
a bow
Then maybe you would remember just what the rings
are there for

When we were married vows were made to love to one
and obey
I placed the ring on your finger with love but you've let
that love slipped away
Wedding rings...
[steel]
Not long ago we were so in love what made this good
love turn bad
I feel the same but it seems you've changed you
forgotten those rings on your hand
Wedding rings...
Just what the rings are there for
