We rise born in the flesh
I will not let this be my regret
From dust we rise and to dust we fall
Keep your eyes on the path
Ready go!
We rise born in the flesh
I will not let this be my regret
From dust we rise and to dust we fall
Keep your eyes on the path
Ready go!
You look back on the past
Take from it what you need
Find it hard just to breath
Bow down on both knees
Realize the anchor bent will solve for nothing

We find favor in all the wrong places
We're going faster
Regret is sinking in
Somehow if we weigh it all out
I feel it would be worth it
We're further from the truth
He who has spoken to me with lying tongues and
Surrounded me with words of hatred
Let their words be few and rip the flesh from my eyes
Here I am!
Staying strong until you rise again
Let It Rain!
Now let it fall from you
By the grace of God, bow down to the will of the king
I give you everything!
Here I am!
Staying strong until you rise again
Let It Rain!
Now let it fall from you
By the grace of God, bow down to the will of the king
I give you everything!
Fight the will to survive, screams the path I leave
Sit back. say your prayers.
Now let your
Wise words be quoted have left you empty

Take the candle. see the light. watch it burn
We find favor in all the wrong places
We're going faster
Regret is sinking in
Somehow if we weigh it all out
I feel it would be worth it
We're further from the truth
Here I am!
Staying strong until you rise again
Let It Rain!
Now let it fall from you
By the grace of God, bow down to the will of the king
I give you everything!
Here I am!
Staying strong until you rise again
Let It Rain!
Now let it fall from you
By the grace of God, bow down to the will of the king
I give you everything!
