Dragons' tears will burn

You and I were a story from the start
Wasn't that how our love played out
And in our youth we danced into the flames
Take my love please, have no doubt

You know this legend will be told
Your whispered story will unfold
Escape to secret places
And dragons' tears will burn

Let this magic take us through our lives
Give us strength and a place to share
The heat will soar as we dance into the flames
Take my hand love and leave no doubt

You know this legend will be told
Your whispered story will unfold
Escape to secret places
And dragons' tears will burn

Dragons' tears will burn [4x]

You know this legend will be told
Your whispered story will unfold
Escape to secret places
And dragons' tears will burn
