Close your eyes  
What do you see  
Visualize  
What you can be

Believe in yourself  
I know you'll make it through  
If you believe in yourself  
Like I believe in you  
Yes, I do

Hold my hand  
Let your mind run free  
You can have anything you want  
Everything you need

If you believe in yourself  
That's all you have to do  
Just believe in yourself  
Like I believe in you

You heart beats  
And it starts to raise you  
But everything seems to fall  
Right into place

Now you see  
What your mind can do  
Give it some more time  
And your dreams will all come true

'Cause you believe in yourself  
And you know what you can do  
You believe in yourself  
Like I believe in you  
Yes, I do  
Like I believe in you  
Like I believe in you, yeah  
Like I believe in you
