(Pilson, Hendrix)

Imagine if you had a second chance at life
What would you change that time to try and make it
right

With black and white, uniting colors everywhere
When all the violence stops will love be in air

With living there's hope
You've only got to care, oh yeah
No matter how far down you go
There's always a way back

Let's all come together now
A whole lotta loving is what we need
Join hands now brothers and sisters
Don't you see it's time for a change
Everyone's afraid to believe

Love has no color
Love has no color

Mr Politician how do you sleep
You're making promises you know you'll never keep
We're gonna spread the message all across the land
Lay down your arms so we can hold each other's hands

With living there's hope
You've got to understand, oh yeah
You know that while there's a still a sun
There always will be light

Let's all come together now now
A whole lotta loving is what we need
Join hands now brothers and sisters
Don't you see it's time for a change
Everyone's afraid to believe
Love has no color
Love has no color

Let's all come together now now
Love has no color
Join hands now brothers and sisters

A whole lotta loving is what we need

Let's all comes together now now
A whole lotta loving is what we need, yeah
Join hands now brothers and sisters
Don't you see it's time for a change
Everyone's afraid to believe

Believe in love
You know you gotta believe
Believe in love
Got to got to believe
Believe in love
You know you gotta believe
Believe in love
Love has no color
Believe in love
Love has no color
Believe in love
Love has no color
Believe in love
You know you know you know you gotta believe
Believe in love
