Generation X  
We are complex  
Angst is the perfect wave  
Ride it and be well paid  
It all sucks, oh by the way  
I wrote a new song today  
So upset with all I have  
And the world is such a drag  
I've become my own cliché

### CHORUS

I am an angry young man  
I am an angry young man  
A.Y.M an angry man  
Repeat the past  
It's a gas, gas, gas  
Make all the same mistakes  
That all my heroes made  
Pretend that I hate fame  
How dare you misspell my name?!  
Hurts so bad, I have to fix  
Apology read by some chick  
Another million in the bag
