let this dance floor rock tonight  
if you wanna get high baby its alright  
let this dance floor rock tonight  
we fall on the floor let your self go this is your night

let this dance floor rock tonight  
get on the floor its your night  
let your self go its out of sight  
if you wanna get hot its alright  
just strap you self in and hold tight

let this dance floor rock tonight  
if you wanna get high baby its alright  
let this dance floor rock tonight  
we fall on the floor let your self go this is your night
