[Chorus]

You can never fade thee G they're so crazy
When they start to blaze after dark
You can never fade thee G they're so crazy
When they start to blaze after dark

Now I can take you on a maze of things but all I know is
street life
20 some years and all I lived was the urban life
Shootin dice smokin weed gettin my hustle on
Makin anybody raise up that try to do me wrong
Me and the homeys on the move tryin to make a grip
Bumpin OGs in zone when we dip
Not to trip, unless you trip
Automatic will release
Dangled as peace
I'm stayin soldier to the streets

So tell me how do you feel cuz I can't deal wit the anger
You niggaz be givin I'm keepin one in the chamber
The pressure is thick so I don't quit shootin game
And peepin our enemies violatin in my range
They say it don't change and heres a fact you should
know
That niggaz don't hustle no matter where yo ass go
So when you think wrong
I'm thinkin right, are you prepared to meet
Gotta be wise cuz everythang ain't what it seems to be

[Chorus]

You can never fade thee G they're so crazy
When they start to blaze after dark
You can never fade thee G they're so crazy
When they start to blaze after dark

[Warren G]

In 6 before out shacks, cruisin each block
I'm lookin for a space with my 40 glock cocked
Temple, Salt lake, 21st Lewis
I hits MLK cuz I know I gots to do this
Some people say Warren would you please stick to

rappin
But this fool's pressin me so I gotta start capping
187 now I'm stuck out of luck
In the high powered module lookin crazy as fuck
LBCing to the fullest 21, dominoes
Buck wheats, french braids and naked four doors
Its my city, my city's all good
Warren G kickin back with the Twinz in the hood

[Chorus]

You can never fade thee G they're so crazy
When they start to blaze after dark
You can never fade thee G they're so crazy
When they start to blaze after dark

[Tripp Locc]

Press up if you want to, believe that you'll get your
feelings hurt
All you hear is the chirp, along with my wheels as I skirt
You shouldn't of tried to fade the Locc there ain't no
get back
I meant that, get ready for combat it's like that
Prayin that my homeys don't flip as I elevate
Bringin nothing but heat stayin away from the weak
links
Be your own man survive
Make that money grow
Whether it comes fast or it comes slow

[Wayniac]

Either way it goes we step so I stick and move
Refuse to lose I choose to get the blues
Paid dues for years, but where were you niggaz then
Out flossin the boulevard being hard wit your friends
While I was at home puttin in work
You think you goin jerk
And take what's mine get me twisted with a skirt
I notice the difference cuz I been back
On niggaz they true
But now I see it and it's on since it's like that

[Chorus]

You can never fade thee G they're so crazy
When they start to blaze after dark
You can never fade thee G they're so crazy
When they start to blaze after dark
