And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...

Music open up your arms take a brother in  
Bass get me to a place I ain't never been  
My ink pen touch case take my pain away  
Songs take away my wrong make it right again  
I know we've been some bad shit  
A lot of ups and downs it's me and my bitch  
But temporary defeat only made me stronger  
I rose to my feet and I stood up taller  
For you at the end of the day  
When I say I'm gonna stop this shit  
Turn around and walk away  
I can't cause that bitch pay a nigga so good  
I wouldn't do it different if I could  
Cause it's me for you and you for me  
And all I see is you and me, baby I'm

And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...

It feels like we've been together for so long  
Me and my 2 turn tables and a microphone  
Holding on tight, I can't let go  
Bringing snoop to dre that wasn't stripper...  
Filled in blocks west coast infrastructure  
From hip hop to the whole gangsta rap culture  
First Californian nigga on death jam  
Nowadays niggas getting signed off a webcam  
Look at some of these labels I grew up with  
They got rich and switched up on some other shit  
We millionaires, damn they billionaires  
I'm like damn I helped all these fools get there  
But now niggas only call when they need something  
I'm in the lap put the al green baby I'm

And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...

I ain't write this for nobody  
I ain't tryina diss nobody  
I'm just being real,  
I've been down since training wheel  
And I fly no copilot, no what you know about it  
Me myself and I respect my rep, west up, chest up, best  
up  
Recognize and realize who's next up  
If you ain't ready for the ride, then don't step up  
I'm og in the league, go t in the league  
So how the fuck you gonna roach me in the league  
Put the roach up, fire up another kush tree  
Had done seen more dollars than you ever could see  
Sum it all up it ain't nothing but love  
I'm just saying what's on my mind, baby I'm

And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...  
And I trill here, you're up and know what...
