Went to see a shrink 'cause my life is such a mess  
Thanks Mr. Freud now I'm broke and depressed  
I had to start smoking to get off Nicorette  
I put the top down just in time to get wet

One of these days my luck is gonna change  
They'll think I'm brilliant instead of insane  
Everything will be different but I'll be the same  
One of these days my luck is gonna change

Bought a new shirt as it was going out of style  
Stood up a blind date, it was Nicki Dial  
Bought a massage so I could relax  
A big man masseuse almost broke my back

One of these days my luck is gonna change  
They'll think I'm brilliant instead of insane  
Everything will be different but I'll be the same  
One of these days my luck is gonna change

Stand in line, pass the time  
Live and learn, wait my turn

One of these days my luck is gonna change  
They'll think I'm brilliant instead of insane  
Everything will be different but I'll be the same  
One of these days

One of these days my luck is gonna change  
They'll think I'm brilliant instead of insane  
Everything will be different but I'll be the same  
One of these days my luck is gonna change  
Could you spare a little change?
