"Goodbye to Neverland"

Visit "[Goodbye to Neverland](#)" on MotoLyrics.com

There's a map that I once followed
It's all in pieces on the ground
Times are drug and can't say no to
Love's a treasure seldom found

You're the hand that I was holding
But you slowly pulled away
There were words I contemplated
Never had the guts to say

Oh oh, goodbye to neverland
I'm sailing off into reality
If there's good in every man
I wonder if there's any good in me

You're the song that I was singing
But I lost the melody
I hate to leave it so unfinished
That's how it's gotta be

Oh oh, goodbye to neverland
I'm sailing off into reality
If there's good in every man
I wonder if there's any good in me

There's a time when we were flying
High above the winds of change
Lookin' up I can't help thinkin'
The world will never be the same

Oh oh, goodbye to neverland
I'm sailing off into reality
If there's good in every man
I wonder if there's any good in me

Goodbye, goodbye
Goodbye to neverland, yeah
If there's good in everyman
I wonder if there's any good in me
