I live in this castle all alone
I must have built these walls with a heart of stone
Whoa, can't you see
Whoa, what you're doing to me?

I'm standin' on top of the world tonight
But I feel like jumpin'
I had it all when I had you in my life
But now that you're runnin'
Without your love I'm the king of nothing

I got a lot of things money can buy
I'd sell them all just to get you off my mind baby
Whoa, can't you see
Whoa, what you're doing to me?

I'm standin' on top of the world tonight
But I feel like jumpin'
I had it all when I had you in my life
But now that you're runnin'
Without your love I'm the king of nothing

Whoa, can't you see
Whoa, what you're doing to me?

I'm standin' on top of the world tonight
But I feel like jumpin'
I had it all when I had you in my life
But now that you're runnin'
Without your love I'm the king of nothing

Without your love baby
Oh, I'm nothing
I'm the king of nothing my baby
Without your love baby
Ooh baby
