"Not Ever"

you say you want this to end
you never want it back again
chorus:
you will never find another love as good as mine, not
ever
wherever you look,
you will see me and you together, forever
your life will never be the same, not ever
You can't shut me out of your life
not after this long
because then you're gonna lose
(chorus)
Not ever not ever
you'll see you and me together
forever
never gonna end, not ever
forever
you and me together
not ever
not ever
never gonna end, not ever
Not ever!
