

Arabesque "Fool's Paradise"

Visit "[Fool's Paradise](#)" on MotoLyrics.com

I know a place
A most unusual place
You could believe you are in outer space
Where you can see (You can see)
Folks like you and me (You and me)
Dance themselves into an ecstasy, ecstasy

* Come on to the fool's paradise
I tell you only you won't be lonely
Night and day the music plays
You cannot hear what people say
Fool's paradise
A little hazy, a little crazy
Take my advice
Come to fool's paradise

Don't fool away a lovely day

Tonight we will do
What everyone should do
Play the fool because we're in the mood
Let's break away (Break away)
Who cares what people say (People say)
Baby love, let's do it right away, right away

* (repeat)

Don't fool away a lovely day
I like a fool who plays it cool

* (repeat 2 times, fade)
