My baby is a basket case
A bipolar mama in leather and lace
Face like an angel--she's a perfect waste
My baby is a basket case

Dracula's daughter, Calamity Jane
Smoke on the water, water on the brain
She's pretty as a picture--and totally crazed
My baby is a basket case

She's gonna make a madman outta me
She's gonna make a madman outta me

She's manic-depressive and schizoid, too
The friskiest psycho that I ever knew
We're paranoid lovers lost in space
My baby is a basket case

My baby's gonna celebrate
I'm being dragged through the nuthouse gates
Got my straitjacket on and I'm taking her place
My baby is a basket case

She finally made a madman outta me
She finally made a madman outta me
My baby made a madman outta me
She finally made a madman outta me
