[Talking voice]

Yeah man, just left town man  
I'm here, here  
Had to get outta town baby  
Where you standin' at?  
You can pick me up at the round busstation  
Or I can take a plane  
Give me a sek and I'll tell you how it went down

[Kool Keith]

I stayed in New York, depressed, walkin' mad through  
the block  
Watching brothers go down, my project friends  
smoking rock  
My group devided and everthing was undecided  
I was drinking, thinking: "Damn and my boat is sinking"  
Everybody's wack can new groups comin' back  
They on Arsenio, ???? on video  
Watch this clownrhyme that's payed for a primetime  
Everybody's mean, they're hard, they're killing mothers  
Shootin' bang bang fake man killing brothers  
I had to turn off the radio from all the war???  
Mickey Mouse and friends all talking pop and lippy  
Girls excited for what? And old ?facturated?  
People got their brain washed and folks got  
manipulated  
They start beleiving Donald Duck made the earth  
The industry was cursed since the Dinosaur's birth  
(The industry was cursed since the Dinosaur's birth)

[Chorus]

It's over now  
No problems in this world  
It's over now  
I'm home chillin' with my girl  
It's over now  
My mom was in a twirl  
It's over now  
I'm home chillin' with my girl  
It's over now  
No problems in this world

It's over now  
I'm home chillin' with my girl  
It's over now  
My mom was caught up in a twirl  
It's over now  
I'm home chillin' with my girl

[Kool Keith]

Flying nighttime, eating peanuts on the plane  
With no moneycontrol, my stress builds on my brain  
My ticket's oneway  
I'm out to southern Caliway  
I left behind some people that wasn't even equal  
I thought back with chicks and freaks in 86'  
When Marlie was in in control +the funky magic mix+  
I had the limousine on hold with the real chauffeur  
Ripped the ???? up with Ultra and I felt like Oprah  
Girls in flocks and fans in lines from blocks  
I didn't even hear a ?paperview? rappin' mister  
I was your idol and probably on your older sister  
Now you bad you signed stupid with a recorddeal  
Your image is butt you perpertrating Shootin' Steel  
Holdin' guns on albumcovers just to make funds  
You the man quick fast payed out the ?anoass?  
You can see I'm back and clear on stereo  
with my own style, my intimite material

[Talking voice]

Ye, your style changed every year  
Think about what you did  
Used to dance, used to wear suits  
Then you came back to wearing hip-hop clothes  
Then you went back to wearing suits

[Chorus]

It's over now  
No problems in this world  
It's over now  
I'm home chillin' with my girl  
It's over now  
My mom was caught up in a twirl  
It's over now  
I'm home chillin' with my girl

[Kool Keith]

No accounted, my lawyer keepin' checks on the low  
Money, expenses for trips I didn't know  
Agencies finding shows I couldn't get myself  
Writing rhymes at night in the house by myself  
I open mailboxes, all I see was more bills  
Gettin' cold chicken, walkin' down Ryan's hills

Askin' moms for 50 cent, just to pay my rent  
I had no will to ill, my mind was out to kill  
I called up Kurt, got a ??? signed with Capitol  
Money's flowin' now wild suckas out blowin' up  
They my pupic care, and pupils still growin' up  
Sucking mean while the g'ism as it hits the rhythm  
They want that new style, no money it's called freestyle  
Taping of the radio, smokin' from a crackvowel  
They on my tip now, as always as usual  
You forgot me, but I didn't forget you

[Chorus]

2x It's over now  
No problems in this world  
It's over now  
I'm home chillin' with my girl  
It's over now  
My mom was caught up in a twirl  
It's over now  
I'm home chillin' with my girl

Yeah...

[Fades out, consisting of scratching sounds]
