Well, I went to the doctor  
I said, "i'm feeling kind of rough..."  
"Let me break it to you son,  
you're shit's fucked up!"  
I said, "My shit's fucked up?!"  
Well, I don't see how!"  
He said, "The shit that used to work,  
won't work now!"

I had a dream; aw shucks, oh well  
Now its all fucked up, its shot out to hell  
yea-eah, my shit's fucked up  
It has to happen to the best of us  
The rich folk suffer like the rest of us  
It'll happen to you.  
That amazing grace  
Thought it passed you by  
You wake up every day, and you start to cry  
You want to die  
But you just can't quit

Let me break it on down  
It's the fucked up shit  
yeah, my shit's fucked up.  
Fucked up.
