I've got a bird that whistles
I've got a bird that sings
I've got a bird that . . . I've got a bird . . .
I'm worried about that bird
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King

Well. I'm hiding from the mailman
And I hate to hear the telephone ring
I'm hiding from the mailman
And I hate to hear the telephone
Worried about the women
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King
I've been up all night
Wondering what November's gonna bring
Worried about my country
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King
Worried about my bird
And I worry about everything
And I worry when I see my subjects
Bow down to the Worrier King
