

## Warrior Soul "Children Of Winter"

Visit "[Children Of Winter](#)" on MotoLyrics.com

This fight's for you and me in the land of the free  
The rock minority against hypocrisy  
They crucify our words but they don't understand  
We want a better world and a share of our land

They point at us but we're their children  
We fight because they taught us to be free

The land where our fathers died  
The land of the pilgrim's pride  
Forced us to decide  
If we stand or if we hide

Believe in me, we'll fight forever  
Until we're free  
We'll fight together, oh, ya come on down  
Children of the winter walk into the springtime

The fathers fought a revolution  
A fight for what we believe in  
Our rights sown there's no confusion  
I don't need to be forgiven to be forgiven

The land where our fathers died  
The land of the pilgrim's pride  
My hatred I can't hide  
I'll kill before they take my rights

Come walk with me, we'll go to heaven  
The world will be our dream together  
Come take my hand rejoice forever  
The promised land if we remember

Children of the winter  
Walk into the springtime
