Calling out to our world leaders of all nations
Calling out to our world believers in freedom
I'm a believer, I'm a believer, I'm a believer, I'm a
believer

I dream supersonic, I dream supersonic, I dream
supersonic
I dream supersonic, I dream supersonic, I dream
supersonic
I dream supersonic, I dream supersonic

We are the government, we are the government, we
are the government
We are the government, we are the government, we
are the government
We are the government, we are the government
And we rock 'n' roll
