Needle boys in the park, rotten cops after dark  
Politicians underground, no light can be found  
All the pimps, all the whores, all demented religious  
wars  
Evangelist so corrupt, arm out, palm up

Jump for joy, oh, jump for joy  
Worlds end  
Jump for joy, oh, jump for joy  
Worlds end

All the oil that you pump, my world's a garbage dump  
Land developed by the pigs, you consume everything  
Bronze, iron turn to steel, eat your plastic at every meal  
Drink the water then you choke your bank account,  
you're broke

Jump for joy, oh, jump for joy  
Worlds end  
Jump for joy, oh, jump for joy  
Worlds end

Populations multiply, there are holes in the sky  
TV man shit on you, you love to be screwed  
Packaging maniac, guaranteed money back  
A no-money superstar, the U.S. on credit cards

Jump for joy, oh, jump for joy  
Worlds end  
Jump for joy, oh, jump for joy  
Worlds end

Silence descends as I walk astray  
God please, keep me straight for just one more day  
Times are bad, I hurt what can I do?  
I just need some time alone with you

Here we are back again  
We have come to the end  
No use for you to cry
