"Man Must Live As One"

Visit "[Man Must Live As One](#)" on MotoLyrics.com

Coming down two thousand years
Elements deep inside me
Eternal man conflict finds the tears
Wars opposite is understanding

Man must live, live as one
Man must live, live as one
The humans war has just begun
Man must live, live as one

Boundaries change and boundaries kill
The dead in fields all around me
Defied heroes in the hills
Told me they died to let us live free

Man must live, live as one
Man must live, live as one
The human war has just begun
Man must live, live as one

People run from a world in danger
Many consumed by their fear and anger
Say a prayer for all our nations
That we will live through our confrontations

Man must live, live as one
Man must live, live as one
The human war has just begun
Man must live, live as one

Man must live, live as one
Man must live, live as one
The human war has just begun
Man must live, live as one

Man must live as one
