Touch down, I'm the space arrival
Carrier of a modern style
Chrome trash and the streets are blazin'
Monochrome flash and my mind is grazin'

I gotta rocket to the sonic sideshow
Hit the gas, man, I'm ready to mind blow

Dream on the tragic set
Gonna fly like a sonic jet
You're gone, turn it on
Come on, man, it's fabulon
You're gone like a kiss

Come on, man, it's fabulous
You're never gonna cry
Did you ever wonder why
You're never gonna die? Star ride

Monitor me, beam and lock on
When I fly, it's got to be mach one
I'm a satellite rockin' in orbit
I love your world, man, and watchin' you blow it

I put a smile on five billion faces
Communicate addict in phases
Bright chrome, all alone
Shattered lives in the killin' zone

Star light cryin' love
Screamin' out dead sky above
Ride on the solar breeze
Acid queen on the dream disease

'Cause you know, you're on another level
You know, they're never gonna tell you
You know, you better get ready to star ride
You're never gonna die

Rocket priest for the sonic religion
Laminated love for the plastic forgiven
I'm acid punk man, now I'm affected

You're primitive but now you're addicted

Bright chrome, all alone
(Monochrome flash and my mind is crazin')
Shattered lives in the killin' zone
(I hit the gas and I'm ready to blaze in)

Star light, cryin' love
(I'm the best that you've seen yet)
Screamin' out dead sky above
(I'm comin' down fast, man, you got a bet)

'Cause you know, as you run into the sky
You know, you never get to cry
You know, did you ever wonder why
You know, you're never gonna die? Star ride
