Soft skin, red lips, blonde hair, smooth hips
You were all of the things that I dream about
Cold sweat, hands shake

C'mon make a mistake
Your demise I create
I know I broke some hearts
But yours is the one that I set out to tear apart

C'mon just take it back
You say your the one then u crawl into my past
Oh no don't think this through

Cause baby you know i'm the one you were born to lose
Your hearts beating faster faster, draws you closer to
disaster
Your hearts beating faster faster, draws you closer to
disaster
Your hearts beating faster faster, draws you closer to
disaster (to disaster)
I know I broke some hearts, but yours is the one t hat I
set out to tear apart

C'mon just take it back,
You say your the one then u crawl into my past
Oh no don't think this through
Cause baby you know i'm the one u were born to lose

I give you up to this grave
And may you burn in hell I say
To the pain you'll remain
Forever lost inside your ways
Your Way

C'mon just take it back
You say you're the one that you crawl into my past
Oh no, don't think this through
Cause baby you know, oh baby you know
You deserve to lose!
