Open up your eyes and look at me  
let me know if you like what you see  
it's so hard to live a fantasy  
when you're caught up in a childish dream

now it's time for you to realize  
you can't hide what you feel inside  
you've got to open up and let it show  
if there's a chance for us I'd like to know

If you don't want me here then I'll be gone  
just say the word and I'll move along  
open up your eyes and look at me  
let me know if you like what you see

now it's time for you to realize  
you can't hide what you feel inside  
you've got to open up and let it show  
if there's a chance for us I'd like to know

open up your eyes and look at me  
let me know if you like what you see  
open up your eyes and look at me
