Well it's late and the night is long,
Go and put on your favorite song,
Well he left and yoor all alone,
Go and out on your favorite song,
And sing lord, lord, lord can you see me,
Lord, lord, lord only you can free me,
Lord, lord, lord only you can hear me,
Lord, lord lord only you can free me,
When you're sad and the night is long,
Go and put on your favoutite song,
Well she left and your all alone,
Go and out on your favorite song,
And sing lord, lord, lord can you see me
