[All] Break it down now
Break it down now
Break it down now
This how it's goin' down

[Minzy] You say you love me but why
Do you keep making it so hard for me?
What is it exactly that you're upset about
Recently your increased interference
and meddling is wearing me out

[CL] Hey, like that, I've been avoiding
Your phone calls for the past few days again
I tell you what's going on
Your promise to make only me happy, boy
Tell me what's up, what's up, you've changed a lot

[Dara] You're trying to overcome this easily
But it seems our time's already up,
Time to say good bye, don't pretend like you can't hear
me
We were over a long time ago, now turn your head
away
I'm singing a break-up song, bye my love

[Minzy] I'm going to fly higher to that far away place
I'm not going to be fooled anymore by sweet
temptations
It's a new start, now it's time to part ways
Once again, I'm boldly making my exit

[Bom] So as expected from you, I hope that you'll
Be free from me forever, this moment right now
Love is always ouch and always comes with pain
I will forget you now

[CL] Sighs that naturally come out in the middle of our
increased arguments
We're doing wrong to each other, and you know this
too, that I'm better without you
Whenever we fight our repetitive, guilty fights, we
always try to win against the other

I hate myself when I'm like this and so I hate you more,
I'm trying to erase you now

[Dara] Please think of farewell as love as well

You'd drive me crazy
Being like this, I don't think I can help but hate you
Instead I'll tell you, it's over, now turn your head away
I'm singing a breakup song, goodbye my love

[CL] I'm going to fly higher to that far away place
I'm not going to be fooled anymore by sweet
temptations
It's a new start, now it's time to part ways
Once again, I'm boldly making my exit

[Bom] So as expected from you, I hope that you'll
Be free from me forever, this moment right now
Love is always ouch and always comes with pain
I will forget you now

[CL] Wherever I go, I will think of you
You're always next to me, always by my side
[Bom] I'll pray for you, bring my two hands together
That you're happy, and that we're forever forever
forever together

[Dara] 'm going to fly higher to that far away place
I'm not going to be fooled anymore by sweet
temptations
It's a new start, now it's time to part ways
Once again, I'm boldly making my exit

[Bom] So as expected from you, I hope that you'll
Be free from me forever, this moment right now
Love is always ouch and always comes with pain
I will forget you now

[All] Break it down now
It's almost over now

[Dara] I won't forget, day and night
The memories I always had with you
Memories I had with you
