"On The Edge"

On the edge looking down
At all those people looking up at me
Trying to see a little tragedy
On the edge looking down, down
I see people gathered around
In a bad movie
Excuse me
I think I'll leave
The first step is the hardest
The second step is by far the longest
The third step say good-bye, say good-bye
Say good-bye
On the edge
Looking down
At all those people trying to be
Somebody's hero for a day
Did I hear someone say "don't do it!"
Well they don't know what brought me to it
