The Real Illusion
Is in your mind
All in your mind

The feeling of confusion
Like the blind
Leading the blind

Don't be angry at the voices in your head
They're only saying something better left unsaid

Take me to the...
Real... Illusion
The Real... Illusion... Real... Illusion

Faith is fading fast
Do you believe
Down on your knees

The truth always comes in last
As long as men breath
And our eyes can see

The politicians with their angle, poise and charm
Will never hurt you no...
They'll never do you harm

Take me to the...
Real... Illusion
The Real... Illusion... Real... Illusion

It's so funny, It's a cosmic joke
The countdown baby going up in smoke
Think I need a little closer shave
She ain't drowning, it's a permanent wave...
