"Searching"

I'm searching for
the words to say
I'm sorry that sometimes
they slip away
When nights grow long
and the drinks are stronger
I find myself stuck in yesterday

Cause I, I don't know
where I'm going
Half of the time,
Half of the time

The road is long
wherever I'm going
let's make it through today
Clouds roll in but
the sun is still showing
we'll get there someday,
someday

The road seems longer
wherever I'm headed
On both sides people
are passing me by
Like my whole life
has just been one big circle
I'm hoping you might
show me a sign

Cause I, I don't know
where we're going
Half of the time, But we,

we'll be sure we get there together

The road is long
wherever I'm going
let's make it through today
Clouds roll in but
the sun is still showing

we'll get there someday

We'll get there someday

Still searching for
the words the say
I'm sorry girl somehow
they slipped away
You're the only place that
my light is still glowing
If it's all the same
I think I'll follow you

The road is long
wherever I'm going
let's make it through today
Clouds roll in
but the sun is still showing
we'll get there someday
There's so far to go but
each day we get closer
to where we wanna stay
Clouds roll in but
the sun is still showing,
we'll get there someday,
someday
