Watching, waiting, growing to something, dreams
don't seem so far away. hope you don't choke as you
eat your words, goes to show God makes a way,
dreams become reality. Knock that off, don't fear to
dream, you'll only be if you want to be. God's faithful,
in everything, don't fear to dream. We all could grow to
be. Could take sometime, could take a long time. Do
what you know is right, think before you act before you
speak. Knock that off, don't fear to dream, you'll only
be if you want to be. God's faithful, in everything, don't
fear to dream. With shut tight eyes we could never see.
Fruit would never grow if we don't think to plant the
seed. I've learned to always think eternally. Clay could
never mold if it stays hard so hard so. Knock that off,
don't fear to dream, you'll only be if you want to be.
God's faithful, in everything, don't fear to dream.
