Im still right here but I never see you please don't go
away I'm feeling so far away Im always near you im just
being myself im sorry im not someone else just want a
friend to stick around they all keep leaving me good
friends seem hard to find stay right here don't go away
I know that im not funny you tell me to leave that you
don't want to see me so ok im on my way. just want a
friend to stick around they all keep leaving me good
friends seem hard to find stay right here don't go away
