Could be that, that in your mind?
That you beat everyone, cause you know everything.
And you know that no ones right,
Cause you've seen half the world, and you know
everything.
So forgive us sire for doing what we like
And keep decrying I don't think ill ever be like you.
Because you're so above me,
Your life is a mystery, everybody wants to know.
Because you're so above me, tell us how to be,
Insult if you ever disagree, but be sure to do it humbly.
Did you come from royal blood,
You do things perfectly, cause you know everything.
Ahead then, tear us all down,
Cause you've seen half the world, and you know
everything about me.
So forgive us sire for doing what we like
And keep decrying I don't think ill ever be like you.
Because you're so above me,
Your life is a mystery, everybody wants to know.
Because you're so above me, tell us how to be,
Insult if you ever disagree, but be sure to do it humbly.
